## TAMOYA Carrier Integration

# Seamless SAP Integration of Your CEP and Transportation Service Providers

**Have you ever faced this?**
You have a high volume of shipments and work with various courier, parcel and express (CEP) and transportation service providers. You want to provide greater transparency about your deliveries internally as well as for your customers. You would like to save yourself the manual calculation of service-provider-specific freight costs and would like to integrate CEP and transportation service providers into your SAP landscape. Then TAMOYA Carrier Integration is what you need!

**Smooth shipping made easy**
The carrier integration functionality of TAMOYA enables a seamless shipping experience between your business and CEP and transportation service providers. It allows you to directly handle all shipping processes based on the chosen shipping carrier. TAMOYA integrates over 150 CEP and transportation service providers and makes automated shipping label printing, freight cost calculation, address validation, and document creation & processing possible.

TAMOYA
BY NTT DATA

## Smart suite, smooth shipping: Why TAMOYA is the right decision for you

Thanks to the integration of CEP and transportation service providers into your SAP system, you achieve end-to-end logistics processes from a single system and dispose of media disruptions. As all service provider services and options are available directly from your SAP system, you can not only fast-track your shipping processes, but also select the best service provider for each shipment.

## A powerful reporting cockpit

The TAMOYA Reporting Cockpit provides you with powerful functionalities that streamline your shipping and logistics processes and ensure complete transparency. You receive shipment tracking updates, can view statuses, history and manifests, and are provided with a range of extensive reporting functionalities such as delivery statistics.

TAMOYA
Carrier Integration

- Carrier Modules
- Label Printing
- Track & Trace
- Freight Calculation
- Address Validation
- EWM & TM Integration

### Good to Know
- TAMOYA ensures that forms, labels, manifests, and interface integrations correspond to the standards of the respective carriers
- Changes to standards and regulations (example: the new mandatory transmission of the goods value to the CEP service provider) are provided via TAMOYA updates

### General/ System Requirements
TAMOYA is used for the electronic integration of CEP and transportation service providers to enable automated delivery processing from your SAP landscape. Thanks to its modular design, the solution can be individually adapted to your needs. General requirements / system requirements:
- SAP ERP 6.0 EHP 4 upwards
- SAP S/4HANA from 1610 to 2023

## We Transform. SAP® Solutions into Value
