

## TAMOYA Packing & Weighing

# Smoothly from the Packing Station to the Consignee - Simplify Your Packing and Weighing Processes

### Have you ever faced this?

You want to speed up your shipping processes and make the day-to-day work of your logistics employees more efficient. Your shipping processes are complex, and you are shipping cross-delivery consignments. You have a high training effort for various packing interfaces in SAP. You need weight information provided in SAP EWM/ SAP ERP/ S/4HANA.

### Packing & Weighing to your needs

Optimize your packing and weighing processes as part of a fully integrated shipping logistics experience compatible with SAP EWM/ SAP

ERP/ S/4HANA. TAMOYA Packing helps you to eliminate non-value-adding activities at the packing station, made possible by enabling multi-delivery consignments handling, fast processing functions, scanner optimization, and an overall improved user experience.

With TAMOYA Scale Adapter, electronic scales can be connected directly in real time to your SAP. It can address several scales from different manufacturers and provides more information than weight, such as calibration memory number.

# 20+

Scale manufacturers in one solution integrated in SAP with no additional software

## TAMOYA Packing in a Nutshell

TAMOYA Packing Station exists as a fully customizable packing station solution fully integrated in SAP S/4HANA or EWM. Individually tailored to your needs, it speeds up your shipping processes by making the daily work of your employees much easier with functions such as:

- Packaging functionalities per packing station with various customizing options
- Individualization via packing station profiles, user assignment, etc.
- Changing of service provider, service codes, packaging material, weight, etc.
- Processing cross-delivery consignments
- Display of the handling unit tree or packing dialog depending on the packing table
- Activating individual check routines for the weight and address of the consignee

## TAMOYA Weighing in a Nutshell

Integrating electronic scales into an SAP system constitutes a challenge for many companies. The TAMOYA Scale Adapter makes it easy to connect electronic scales or weighing terminals from different manufacturers to your SAP system.

- SAP certified solution
- Connection of 20+ different scales from various manufacturers to SAP via one adapter without additional coupling programs
- Data transmission in real time
- Plug & play: Easy setup and optimized readout of the weighing memory

SAP certified scale adapter

### Perfect Duo, or Trio,...?

#### Experience the full potential of TAMOYA

TAMOYA Packing & Weighing optimizes your daily shipping processes and can easily be complemented by TAMOYA Carrier Integration and other TAMOYA modules. Packing station, scale adapter and freight cost calculation - the perfect trio for your efficient shipment processing.

### General/ System Requirements

- SAP ERP 6.0 EHP 4 upwards
- SAP S/4HANA from 1610 upwards
- SAP EWM 9.5 upwards
- SAP EWM 1909 upwards (SAP S/4HANA)
