

TAMOYA ATLAS Export

# International Shipping from Germany - Leave Manual Export Declarations Behind

## Have you ever faced this?

You are strained from manually creating and checking export declarations and order data in your export processes. Your company exports to non-EU countries using the ATLAS electronic customs system. You wish for a simple and reliable export process that takes the applicable AES 3.0 guidelines into account. You would like to have complete documentation and management of electronic customs documents available directly in your SAP system.

## Increased efficiency, transparency, and reliability

TAMOYA ATLAS Export automates electronic communication with the German customs authorities. From the automated export declaration with data import from invoices to the management of customs documents received: TAMOYA is fully integrated in SAP ERP and SAP S/4HANA. It enables comprehensive coordination, management, and monitoring of export procedures.

Certified by  
German Customs
